Congressman Henderson of Iowa is showing considerable strength as

a candidate to succeed speaker Reed.

The harmony that was manifested by the Ohio republican convention is a disappointment to the demopop crowd who had counted on a hair pulling time.

Good times, increased business and good prices for cattle, horses, hogs, corn and wheat is a condition and not a theory, brought about under a republican administration that makes our calamity brethren weep

There has never been a time in the history of this nation when more machinery was in operation, more labor imployed at remunerative wages, or as large a circulation of money per capital as at the pro

As the question of expansion was settled by congress ratifying the peace treaty with Spain, and the republicans are prosecuting the trusts, poor Bryan sees no other issue for him left but the dead issue of 16 to 1.

From the supply of intoxicants the sheriff and his deputies have gathered in this week from the country towns, it is evident that the licensed saloons have not had a monoply on dispensing wet goods in Custer county.

The expansion of the currency under McKinley's administration has been so generally satisfactory to the public that the flat craze that prevailed in 96, when Bryan was stumping the country has died, leaving searcely a mourner except Gen. Weaver and Col. Bryan.

The pops seem to be divided on their candidate for county judge. J. R. Dean is said to be the choice of those who control. And as those of the Beal and Shinn faction class him with those who are responsible for Shinn and Beal's defeat, they are not pleased.

Since their conference at St. Louis, the democrats have discovered that their anti-trust issue is republican doctrine, reiterated by the Ohio republican state convention. It is now worrying the leaders to see bow they can dodge the issue and to keep from agreeing with the republicans.

The suggestion of our correspondent, "Old Soldier," in a communication in this issue relating to a reunton of the union soldiers with the soldiers of the Spanish-American finer scenery then via any other line War, on the return of Company M to California. from Manila, is a good one. The people of the county should have an opporunity on the return of the boys to greet them. A two days reunion and reception held at Broken Bow as so on asarrangements can be made for it on their return, should be from public square: also a good bicycle of the post office.

Congressional Candidates

The republicans of the Sixth congressional district are easting about for a candidate to make the race for congress this fall, and the names of a number of good men are being brought to the front, although so far as the Hub knows none of them and it does not know whether any of the gentleman discussed would accept of it. Present tendency is of Broken Bow, but Judge Grimes Wilcox of the same city, and Judge Kancard of O, Neill, are considered possibilities and good material with which to make a congressman.

Senator Currie gave an exhibition of his running qualities by winning out in a strong populist district and made as good a record during the recent session as any member of either branch of the legislature. Judge Grimes has been a political power in western Nebraska and is well equipped in every particular to make a good race. As to Representative Wilcox the Hub pleads ignorance, but that it is not in the least to his detriment. Judge Kinaid has been considered a possibility for the past eight years but east of the city, races to begin at has always been loath to make a nomination. The claim that he is a strong man is attested by the fact that he has remained on the district bench during all the troubled days of populism, and there has been no populist candinate strong enough to break his hold upon the people of northern Nebraska. He would undoubtedly make a strong candidate. –Kearney Hub.

A HORSELESS carriage has covered the distance between Cleveland and New York in four days and eleven and a half hours, a distance of seven hundred miles. No "horse laugh" accompanies this statement. Indeed the day is not far distant when the automobile or horseless carriage will be as common as the horse .-Kearney Hub.

Indian corn has become an ingredient of smokeless powder, and is turned into a substitute for rubber. Europe has also discovered the merits of corn cakes with maple syrup. There is an expansive future for maize,-Globe Democrat.

Notice.

Parents desiring to send their children to school in an adjoining district under the "Nearer Attendance Law," should send for blanks at once, as all transfers must be made at or before the annual meeting. Transfers under this law hold good for one year only. The annual supply of blanks has been sent out to all districts. If for any reason any district should fair to receive theirs by May 10th they should notify me and another supply will be sent. J.J. TCOLEY,

Married Seventy Years.

On Sunday, May 7, Mr. and Mrs. Welcome Wells celebrated the seventieth anniversary of their wedding A reception was held as their home in Manhattan from two to four on the afternoon of their anniversary. Mrs and Mr. Wells were for many years resident of Blue township, but a few years ago moved to Manhattan. Mr. Wells is ninety years old and his wife is eighty seven. They were married in 1829 and therefore their silver wedding anniversary occured seven years before the commencement of the civil war. He was seven years too old to volunteer for the service of his country when the call for troops was made in 1861.

Mr. Wells was a representative to the state legislature in 1862 and again in 1872. In 7878, he was elected to the state senate. For nine years he was county commis sioner of Pottawatomie county. Mr. Wells cast his first presidential vote for Andrew Jackson .- West Moreland Recorder.
